THE CHARM OF HOME.

Have you bought the fine new Kimball,  
Which you've wanted, oh, so long?  
If not, you have done your children  
And society a wrong.

For you should encourage culture  
Of the finer parts of mind;  
With a Kimball in your cottage,  
More enjoyment you will find.

Boys and girls will not be noisy,  
Wife won't scold, nor fret, nor frown,  
Home once filled with Kimball music,  
Will be happiest in the town.

So you should immediately,  
Try the Kimball's merits here.  
And when once you know its value,  
You will buy one, never fear.

GENERAL.

WATERFALLS.

WATERFALLS.</

falling building. Captain George Rhodes, of Canal Street ferry, who dropped dead at the wheel from excitement. The fatally injured are: R. Baudier, who was run over while blinded by rain; L. Betz, probably fatally injured by electric wire, which killed two horses. The wind reached a velocity of forty-eight miles an hour at 8 o'clock, when the Weather Bureau instrument was destroyed.

The crash of sheds and buildings blown down, trees torn up and houses unroofed, caused intense alarm, and most of the population of the city stayed up all night expecting their houses to be blown down. Among the buildings destroyed, was a large market, which crushed several buildings in its fall. But the northeast Mission Church, engine-yards of the Northeastern railroad, the Coleman boiler shop, and the Pythian Hall. A number of other buildings were unroofed.

Below the city the results of the storm are far worse. In Plaquemine parish, the wind reached a velocity of 100 miles an hour. In Justice parish, at Pointe La Haie, a town of 2,000 inhabitants, a house exploded in fire. Four grown persons and several children were killed. Among the killed are: Miss Leon A. Franche and Mrs. E. La Vanders, two of the most prominent ladies in the city. The death of Mrs. La Vanders is the only one of note. The other deaths are reported and still thirteen others in the country below. When the news from the gulf coast is received, it is feared the mortality list will be greatly increased.

The loss to the oilage industry is estimated at over \$350,000. The loss is very heavy in other crops and other property, but the news is yet too vague to form estimates as to the amount.

#### THE GREAT HURRICANE.

**Losses in Life and Property Unprecedented in This Country.**

PHILADELPHIA, Oct. 2.—(By the Associated Press.) At the Maritime Exchange today, it is stated that the August hurricane was the most destructive in the history of the country. Maritime underwriters value the property loss to sailing vessels alone at over \$4,000,000. The loss of life is placed at \$54. Forty vessels foundered; eighteen were abandoned at sea, forty-six were stranded, damaged, and the fate of nineteen is unknown. The Atlantic Coast from Maine to North Carolina is in a dangerous condition on account of the floating wreckage.

#### Disastrous Washout.

NEW ORLEANS, Oct. 2.—During a high wind and rainstorms on Sunday night and Monday, the Louisville and Nashville suffered the most disastrous washout in the history of the road. The line is impassable east of Cheffenture, eighteen miles from New Orleans, for a distance of fifteen miles, and from the stations of the trainmen, it is learned that the entire line to Mobile suffered greatly.

#### TOOK A PRIZE.

**California Goats and Sheep are Good Stuff.**

**Angora and Astrachan Breeds—First and Second Premiums in Most Instances—Bucks, Does, Rams and Ewes.**

By Telegraph to The Times. BOSTON.

CHICAGO, Oct. 2.—(Special.) California goats and sheep were awarded a premium at the live stock show at the World's Fair today. C. P. Bailey of San Jose was the fortunate exhibitor. He secured awards as follows:

Angora goats—Section 1, bucks 2 years or over, first and second premiums; section 2, bucks 1-year and under, first and second premiums; section 3, bucks under 1 year, first and second premiums; section 4, does 2 years or over, first and second premiums; section 5, does 1 year and under 2, first and second premiums; section 6, does under 1 year, first and second premiums; section 7, pens of two; section 8, does bred by exhibitor, first premium; section 8, bucks of any age, first and second premiums; section 9, does of any age; first and second premiums.

Special, Persian or Astrachan sheep—Section 1, rams 2 years or over, first premium; section 2, rams under 1 year, first premium; section 3, ewes under 1 year, first and second premiums.

#### A SCIENTIFIC REPORT.

No Superficial Investigation of California Wines Will Do.

CHICAGO, Oct. 2.—(By the Associated Press.) Charles Oldham, the official representative of the Imperial British Commission, is actively engaged in testing California wines at the World's Fair. The task is a large one, as the wine exhibit of the Golden Gate is very extensive.

When we get through the fair we will have a critical, three-year test of medals and diplomas," said Mr. Weller, who is in charge of the exhibit. "We do not care for this; we want a critical examination of our goods and a fair and impartial report on the merits and demerits represented nothing. What the exhibitors of California can do is to let us report on their wares, and through Mr. Oldham we are sure of getting it. Mr. Oldham is a wine merchant of London, and is competent to render a scientific and intelligent report on the improvements we have made in viticulture."

In addition to Mr. Oldham, of Oldham, Prof. W. H. Wiley, chief chemist of the United States Department of Agriculture, has consented to make a thorough examination of the wines, and he began today, and will spend some time at the fair report will relate principally to the quality of the wines. The juries appointed to test wines in the exposition are not regarded with much favor by most foreigners. Several foreign nations, including France and Austria, have representatives on the ground who will make separate reports to their commissions. France has three experts, and they will, in all likelihood will test California wines.

#### CHINESE CERTIFICATES.

**Modifications in the Method of Cancelling Them.**

WASHINGTON, Oct. 2.—(By the Associated Press.) Assistant, Secretary Hamlin has issued a circular to collectors and other officers of customs, modifying the instructions contained in the Treasury Department circular dated August 1, 1891, to collectors of customs at ports where Chinese first arrive in the United States. These instructions required the collectors to cancel certificates and retain the same on files.

By the modifications ordered by the Assistant Secretary, the collectors are instructed to deliver such certificates to the postmaster, post office, after indorsing on the face thereof, in red ink, the name of the passengers, name of the vessel, date of arrival, and signature of the Collector, and cancelling them by punching or otherwise, in such manner as to preclude further use.

#### [COAST RECORD.] THE SLICKEST OUT.

**A Smooth Forger's Work in Grass Valley.**

**He Does Up the Business Men With Bogus Checks.**

**And Supplies His Wants from Banjos to Clothes.**

**Tyrrell Identified as the Man With the Van—Fires in the Vicinity of Sonoma—The Women's Temperance Union at Stockton.**

By Telegraph to The Times.

GRASS VALLEY, Oct. 2.—(By the Associated Press.) On Saturday night a man came to town from Nevada City, walked into the jewelry store of H. C. Zapf, stating that he wanted to buy a watch. He was shown a gold-filled, open-face watch worth \$22.50, and said he would take it. He presented a check on the Citizens' Bank for \$50. The check was signed by Fred Zeitzer, superintendent of the Champion mine of Nevada City. When questioned by Zapf the man said that he was working in the Champion mine. The jeweler gave him the watch and \$7.50 in change for the check, which was made payable to Thomas Smith or his wife, and he abandoned the check, signing "Thomas Smith." The same day he purchased a diamond ring worth \$21, presented a similar check for \$43, which was cashed by Howe, and change was given in coin.

The clothing house of Roberts & Hartman was visited, where the man gave his name as John Evans. He ordered a hat and some clothing amounting to \$10, and presented a check for \$42. He received his change and then went to T. K. Cooley's place, bought a piano for \$9, gave a check for \$35, indorsed it under the name of John Howards.

The fellow next went to Purcell's livery stable, hired a team and driver, and went to Coffey, stating that he wanted to get there as early as possible to catch the train for Newcastle, as his mother was very sick. He took the team and boarded the train bound east.

His checks were all forged, but he did his work in such a cool way that nothing was suspected of him until he had left town. The business was all done in the evening, as the stores were closed, and he left town about 11 o'clock. He is a tall, well-built man, about 5 feet 9 inches in height, and weighs about 185 pounds. He is rather dark and has a very short moustache. He speaks German a little.

DEATH ON THE WATER.

The Sad End of a Boating Party in Sonoma's Puck.

MARSHFIELD (Ore.) Oct. 2.—(By the Associated Press.) Four people were drowned yesterday afternoon, near North Slough, Sand Point, by the capsizing of a sailboat. Their names are E. M. Delouney, two children and John Wickland.

Delouney, his wife and three children, Miss Bettie Benson and John Wickland, comprised a party which had been at the sandhills picking berries. They embarked for home at the north bend at an early hour, with a light wind, and when about sixty rods off shore, Wickland set sail in the small skiff, which was very cranky under its heavy load. The boom happened to be on the wrong side, and, when struck by a gust of wind, it gored to striking Wickland, who was standing up, knocking him down, and the party of the craft was capsizing, it was crowding its seven occupants into the water.

De Louney seized his youngest boy, about 5 years old, and started for shore, telling his wife, who was clinging to the boat with the rest of the party, to remain where she was, and when he had swum ashore and come back after her. These were his last words, for he only swam a few strokes and went down with his son. Wickland started for shore, but when a few feet from the boat he also sank and was lost.

De Louney seized his youngest boy, about 5 years old, and started for shore, telling his wife, who was clinging to the boat with the rest of the party, to remain where she was, and when he had swum ashore and come back after her. These were his last words, for he only swam a few strokes and went down with his son. Wickland started for shore, but when a few feet from the boat he also sank and was lost.

During the interval that they were in the water, Mrs. de Louney left her hold on the boat and was sinking when Miss Benson grabbed her and hauled her onto the boat again. She had also kept Mrs. de Louney's little daughter on the sunken craft fully half an hour when the child fell off and was drowned.

The bodies of Mr. de Louney and his son were recovered today.

CHINESE GORE SPILLED.

A Shooting Affray in Which Three are KILLED.

SANTA ROSA, Oct. 2.—(By the Associated Press.) A report has been received from Sebastopol that three Chinese were killed there today. Several Chinamen became involved in a quarrel, and three of them were shot. Two were killed instantly, and the other is dying.

The Chinese who did the shooting are supposed to have taken to the brush, and friends of the dead men refuse to divulge the particulars of the shooting or the cause of the trouble. Sir Alfred is on the spot making an investigation.

CHARLEY AH HIM.

He is Captured by Deputy Johnson at San Diego.

SAN DIEGO, Oct. 2.—(By the Associated Press.) Charley Ah Him, a noted Chinaman of Los Angeles, who has been at the bottom of most of the disturbances committed by the Chinese of that city until recently, was arrested here this morning by Harry Johnson, deputy United States Marshal of Los Angeles, assisted by several police officers. He had been in the city since Saturday, but the marshal was informed of his arrival and secured the man wanted.

Johnson, in pains that word should reach them that he had abandoned the hunt, and having ascertained the whereabouts of Ah Him, tonight surrounded the house and caught him, taking him completely by surprise. A warrant for his arrest had been out for some time, on a charge of violation of the Geary act, and his deportation will undoubtedly be ordered.

A JANITOR KILLED.

His Head Almost Severed from His Body by an Elevator.

SAN FRANCISCO, Oct. 2.—(By the Associated Press.) The janitor of the Chronicle building was killed in a horrid manner this afternoon. He was

standing on top of one of the two elevators, which ran side by side, engaged in painting the iron grating between the two shafts.

He leaned into the shaft of the other elevator, which was running, while busily engaged at work, and the elevator descended, striking the man in the head and shoulders. Death was instantaneous as his head was almost severed from his body. The deceased was named Edward Bottling. He was 35 years of age, and was a married man.

A KIDNAPER ARRESTED.

One of the Men Who Robbed Millionaire Perrin.

SAN FRANCISCO, Oct. 2.—(By the Associated Press.) Thomas Kennedy, alias Bailey, was arrested on a charge of conspiracy today. Kennedy was one of the men who kidnapped an aged millionaire of Detroit named Perrin. Perrin was bound and gagged in his residence, and taken to a house, where he was kept for several days, and was forced to sign a check for \$30,000 for his ransom.

One of the kidnappers was captured.

Mr. Kennedy, alias Bailey, was captured, the other, coming to San Francisco, Kennedy denies that he is the man wanted, but admits that he kept a saloon in Detroit at the time the kidnapping occurred. The requisition papers have been forwarded from Detroit and Kennedy will be taken there.

A FOUR DAYS' SESSION.

Fourteenth Annual Convention of the W. C. T. U. at Stockton.

STOCKTON, Oct. 2.—(By the Associated Press.) The fourteenth annual convention of the California Women's Christian Temperance Union will be opened here tomorrow, and will continue four days. Many of the delegates arrived today, and this evening welcoming services were held at the Central Methodist Church. Addresses of welcome were delivered on behalf of W. C. T. U. by Mrs. S. M. Dorr, local president. "The Good Temper," by Mrs. Jessie Southworth; "The Lowest Clergy," by Rev. Jessie Wood; "The Educational Department," Prof. D. A. Mobley; "The City of Stockton," by Charles Light.

FIRES IN THE HILLS.

Ago Caliente Saved by Men and Boys from Sonoma.

By Telegraph to The Times.

NEW YORK, Oct. 2.—(By the Associated Press.) Fully five thousand people took a look at the Valkyrie in the dry-dock today, after the water was all pumped out.

Designer Vredeland said: "She's the slickest thing that ever came over here to race, and will give the Vigilant a strong race for the cup. There is nothing to stop her anywhere in her lines, and she goes in very fine, but she is an American, though, and a good American at that. There is a great resemblance in her to the Herreshoff models, especially in the shovelnosed bow."

No adverse comment was heard during the day, but on the contrary, her lines provoked universal admiration. The Vigilant tried her new hollow bow to race, and will give the Valkyrie a strong race for the cup. There is nothing to stop her anywhere in her lines, and she goes in very fine, but she is an American, though, and a good American at that. There is a great resemblance in her to the Herreshoff models, especially in the shovelnosed bow."

The assemblage of the company in masks and dominoes, or fancy costumes, was the signal for the merriest, and most of the disguised were so complete that the closest friends failed to recognize each other. The ball opened with a grand march, followed by the Centennial lancers, eighteen numbers being announced. At 11 o'clock a bell sounded the signal for raising masks, when various amateur costumed groups were paraded in a procession of tete-a-tete tables, in nooks screened by the palms, and out on the canvased veranda.

The patronesses, Mrs. John Wigmore, Mrs. Mary H. Danning, Mrs. W. H. Vail and Mrs. Charles Eliot, received the ballgoers.

LOS ANGELES THEATER.—Urana.

## That State Pamphlet.

We have received a letter from E. W. Maslin, secretary of the State Board of Trade, in regard to criticisms which have appeared in certain Southern California papers regarding the pamphlet which was issued by the State board for circulation at the World's Fair, which pamphlet was edited by Mr. Maslin.

The only point upon which The Times criticised this work was regarding the map of the State, which accompanied it. It was this feature regarding which the Los Angeles Chamber of Commerce passed resolutions. Mr. Maslin explains at some length that he did not write the descriptive articles of the six Southern California counties. As far as we are aware there is no necessity for an apology by him on that score. We have heard no criticism of the character or quantity of the matter devoted to Southern California, and the claims which have been made by some papers that this section of the State has not been properly dealt with in the pamphlet do not appear to be well founded.

As to the map, this is another question. In his letter to us Mr. Maslin refers to it as follows:

"I confess that the map it not what it ought to be. The point was to confine expenses so as to print as large a number of the book as possible. There was no time to prepare a new stone. It would have cost too much, and besides time was valuable. We had to choose between the lithographed stone already prepared or send to Chicago for a map. Patriotic pride, economy and want of time forbade the latter course. I admit that I did not look to see whether Pomona or other towns were on the map. I was only concerned to have the county lines displayed to illustrate the text. The three new counties had not been organized when the map went to press. The error of the map compared to the body of the work is merely 'the fly in the amber.' The book will remain while the map will be destroyed."

Mr. Maslin no doubt meant well, but he certainly committed an error of judgment when he allowed "Patriotic pride, economy and want of time" to prevent him from getting something a little more reasonably decent than the disgraceful map which accompanies the pamphlet, and which has quite naturally aroused the ire of many people in this section of the State. It would have been better to have given a map about one-fourth the size, or even one-eighth the size, rather than the blurred and indistinct work of this kind of stuff, which was reprinted in many papers, until a friend of the Senator wrote to him regarding the truth of the report, when he received the following reply from Mr. Sherman:

"Cleveland is, perhaps, the broad-minded man that ever sat in the President's chair. Beyond any of his predecessors he has the courage and the tact to make a map that is not only a trifle aside, and of addressing himself to the people. I cannot shake off the convictions of his superb abilities and his magnificent patriotism." There was about half a column more of this kind of stuff, which was reprinted in many papers, until a friend of the Senator wrote to him regarding the truth of the report, when he received the following reply from Mr. Sherman:

"Dear Sir—Your note of September 13 is received. The enclosed clipping is a gross exaggeration of anything I ever said, but no recollection of making such a statement of the merits of Grover Cleveland. I have handed it over to him as a man of ability, but never could have uttered such a eulogy as attributed to me. Very truly yours, JOHN SHERMAN."

Santa Barbara has completed the design for her building for the Midwinter Fair, and it is a unique and interesting one. The Santa Barbara Press says of it:

"The interior of the building will be fashioned after a modern opera-house, the central attraction being the immense aquarium, which will hold 40,000 gallons of sea water. Back of the aquarium will be arranged the grottoes and rockeries similar in character to the homes of the marine animals that will be on exhibition there. The main entrance opens into the lobby, 40 by 20 feet, in the immediate vicinity of the aquarium. On the ground floor is the lobby vestibule, box office, gents' toilet-rooms and store-room. To the left of the main entrance is a broad staircase leading to the dress room. The main entrance, on the second floor, is the parquet circle, with luxurious easy chairs. On this floor, also, is a saloon for rest and comfort, the ladies' toilet-rooms and balcony. From the saloon, by easy steps, one ascends to an elevated platform of sixty feet, an excellent view of the grounds may be had. It will be a frame building, 56 by 66 feet, and 92 feet over all."

What will Los Angeles have to offer that will be original and attractive? She should have a building with attractions distinctively California. It will need some rustling on our part, if we would "do ourselves proud" at the fair.

Beggars at our doors are getting more frequent than before the tramp surplus was forced upon us by the railroads. They all claim to be hungry and want "just a little money." Doubtless there are some honest men in this army, and they should be aided by our best efforts to help them secure employment; but the men who are in search of work, fearing that they will find it, are not deserving of public sympathy, and are a menace to the peace and safety of the community. They will bear watching.

From time to time reports are received by the press of new and wonderful cures for diseases which have been discovered by some enterprising physician. Such is a new remedy for consumption, which a Cincinnati physician claims to have discovered and to which considerable space has been devoted in the dispatches of late. As a rule, the public have a right to view with some suspicion these marvelous new remedies, regarding the composition of which no particulars are given

to the public. There is too much temptation for a man to attempt to work the press in this manner and thus save the immense sums which are paid out annually for advertising by the proprietors of patent medicines. The man who can get the public to believe that he has discovered a certain cure for some disease, and who can get the press of the country to announce this discovery can easily make a fortune before the failure of his discovery becomes generally known.

Russell Webb, the new apostle of Mohammedanism in this country, is not succeeding very well in his religious crusade. American women hiss him when he preaches the gospel of polygamy to them. Russell should have been born a thousand years ago, for his wisdom is not of today, nor does his gospel belong to the age in which he lives.

Chris Evans is down on the press in general. He says that it is doing all in its power to destroy the popularity of the drama, "Evans and Sontag." No better praise could be given to the press of California than this, and it will tend to impress the fact upon young minds that Evans is not a hero, but simply a criminal and outlaw.

There seems to be a growing sentiment in the Democratic party in favor of the repudiation of Cleveland. His high-handed Democracy does not set well on the stomachs of the faithful. "A house divided against itself," etc.

The University of California proposes the appointment of an official microbe hunter. Now let it offer a big bounty for the scalp of each microbe, and let none of the guilty ones escape.

The public debt now stands at \$961,686,785. The receipts from customs fell off over \$13,000,000, and the internal revenue receipts \$6,000,000 since July 1, as compared with the same period last year.

The prohibition ordinance passed by the Board of Supervisors of Riverside county went into effect on Sunday morning, and in consequence the county is now "dry."

The Interior Department has asked for appropriations for the next fiscal year which show a reduction of \$5,000,000 in the proposed expenditures for pensions.

## [AMUSEMENT RECORD] AT THE PLAYHOUSES.

LOS ANGELES THEATER.—The people who attended the Los Angeles Theater last night went on a trip to the moon under the guidance of Garrett P. Serviss. The vehicle of conveyance was the wonderful spectacular novelty called "Urana," and that the journey was enjoyed was evinced by the hearty applause which greeted each scene of the play.

## THE RED SCALE.

The Pest Said to Be  
Dying Out.

The Cause of the Destruction  
Yet Unknown.

Improvement in the Condition of  
Several Orchards.

Prof. Coquillette Investigating the Matter  
A Matter of Far-reaching Importance  
to All Fruit  
Growers.

The red scale, which has for so long a time been one of the worst pests to the orange-growers of Southern California, and which has destroyed annually large quantities of fruit, promises to soon become extinct or nearly so, and that without the intervention of the parasitic ladybird.

Just how or what it is that is thus causing the destruction of this red scale is not at present known, but certain it is that it is dying off, and that rapidly.

By courtesy of G. J. Griffith two reporters of the morning papers were yesterday given an opportunity to investigate as to the extent of the diminution in the numbers of this enemy to the orange industry.

At Mr. Kerchaval's orchard, near Vernon, a large lemon tree, which was one year ago nearly barren as a result of having to have a quantity of lime-ash of some of the scale were found to be still on it, but the steel-blue ladybird, a colony of which had been placed on the tree one year ago, had apparently caused the destruction of nearly all of them.

In other orchards, however, where the scale had not been yet introduced, the red scale seems to be dying off as fast or even faster, and from causes which have not as yet been ascertained.

In the orchard of E. H. Morgan, on what is known as the Old Casa place, where none of the ladybirds have as yet been colored, the scale was found to be dying off at a rapid rate. It will be remembered that the scale is shaped somewhat like a turtle, being flat in form and having a thin shell on both its upper and lower sides. When in a healthy condition, that is healthy for its host, the upper and lower adheses closely to the leaf or fruit on which it lies, and the scale is of nearly the same color throughout. On those that were seen yesterday the different stages of its death were plainly visible. The outer edge of the scale would first assume a whitish color, which would gradually spread toward its center. The edge of the shell on one side or the other would raise slowly from the leaf or fruit to which it was attached and in course of time it would be blown away by the action of the wind or by a brush from the leaves or branches of the tree. If the scale were not brushed or blown away it would in time become black.

The cause of this destruction has not yet been discovered, although the matter is now under investigation. It is believed to be the result of some disease of the tree or else of some sort of growth of fungus about it. Prof. Coquillette has some specimens of it under investigation.

The disposal of this pest is considered to be a matter of far-reaching importance. Should it now continue to die off as it has, it will only be necessary, in order to have treatment of its ravages, to let it die. Should it appear in alarming numbers at some future time, however, a knowledge of the causes of its destruction now will be most valuable. It is to this end that the matter is being investigated.

It is estimated that in orchards where this destruction has occurred fully 96 per cent. of the scale have died in the manner described.

## POLICE COMMISSIONERS.

Matters to Come Up at This Morning's Session.

The Police Commission will meet this morning. Among other matters to come up is the motion of Councilman Pessell at last Monday's meeting of the Council, which motion was referred to the commission. It was that the Police Commission be requested to report why it was that the patrol wagon had not been covered in accordance with the motion to that effect, which was passed by the Council on March 20 last.

This is likely to cause some discussion, and it is thought the Mayor will take advantage of the opportunity to again speak his mind as to the need of the city having additional police.

The proposition of issuing printed notices containing the new rules of the board, to the keepers of the various saloons, is also expected to be brought up, and the future action of the board defined in the matter of side entrances and back rooms.

The Federal Courts.

All departments in the Federal building were opened yesterday during the annual recess, the only other labor day being a State holiday, and not affecting the government officials.

The Circuit Court held a brief session yesterday. Ray Billingsley, Esq., of Santa Ana was admitted to practice, on motion of S. O. Houghton, Esq., of this city.

Thomas Downing was brought before United States Commissioner Van Dyke, charged with unlawfully cutting government timber. His hearing was set for October 18.

Dr. Wong's SANITARIUM!

Four years ago my daughter, Virginia Bell, was treated by Dr. Wong for what physician called lip disease, and had pronounced incurable after treating her for eight years. Dr. Wong diagnosed her as being afflicted with one of thirteen forms of cancer. His medicine effected a permanent cure in seven months. For the last two years my daughter has been blind in one eye. Dr. Wong restored his sight in three weeks' time. A LASSWELL, Savannah, Ga.

After I had been treated eleven years by other doctors, Dr. Wong diagnosed me and they had stated that I couldn't live two months. I took Dr. Wong's medicine and was cured in seven months. I enjoy excellent health.

## PASADENA.

## A Proposition Touching That Street Car Track.

Being Orphaned, Shall It Be Spared—A Very Pretty Home Wedding—Summary of September Weather—Brevities.

The paving force has fairly got its hand in, and the way Labor day was observed upon that public improvement was full of promise for the early completion of the job. And now the talk of the street improvements tends toward a proposition that the orphan track and franchise on Colorado street west of Fair Oaks avenue, be abolished wholly that since no one appears to claim either, and to make good the claim of paving the territory occupied, that track and track rights be banished, and the street finished up without regard to either.

Of course such action would lay burdens upon adjoining property-owners which they have not figured on, but there would be compensating benefits. It is even claimed that Pasadena could profit by the abolition of a street car track down Colorado street. And who shall say it would not? Meantime, paving goes merrily on, and whatever is done, must be quickly done.

## WEDDING BELLS.

A pretty home-wedding took place at the St. Nicholas in Pasadena, Monday afternoon at 5 o'clock, by which Miss Idione McLain, the popular proprietor of the hotel, and Col. B. C. Jones of Phoenix, Ariz., became husband and wife. Rev. J. W. Phelps officiated at the ceremony, which was witnessed only by the immediate friends of the parties and the guests of the hotel. The accessory attractions of home-weddings were not wanting in the surroundings, and the ceremony was followed by a successful reception.

Miss Jones left soon after the ceremony for Los Angeles, whence they go at once to Chicago, and the World's Fair, devoting a month to the bridal tour, after which they will return to Pasadena, where the bride is well and widely known, and the groom will be cordially welcomed.

## A COLD SEPTEMBER.

Voluntary Observer Harold S. Channing submits September weather to this effect:

"September, 1893, will long be remembered as the coldest September on record. The first four days of the month were warm, but were immediately followed by a steady, unusually low temperature. The nights, in particular, were unseasonably cold. At the same time, it was so unusually cold here, it was extremely hot in the Northwest. There were no windstorms, no thunderstorms, no frosts, and only one cloudy day during the month. Tuesday evening was very foggy, the fog generally clearing off at 10 to 8 a.m. The maximum temperature rose to 30 deg., or above, on only seven days."

The figures in support of this summary are the following: Extreme high temperature, 34, 91.5 deg.; extreme low temperature, 20, 20.5 deg.; mean 55.4 deg.; average daily, 25.48 deg. Total rainfall during the month, .04 inch.

## PASADENA BREVITIES.

H. H. Rose has opened a law office in the Talcott building.

The banks here did not observe Labor day, Monday, but remained open as usual.

## A DRY COUNTY.

The Order of Chosen Friends will have a picnic tea at Odd Fellows' Hall this Tuesday evening.

W. T. Clapp has been quite seriously indisposed since Saturday evening, but is, at this writing, considerably improved.

The City Council convened Monday afternoon, but, in deference to the day, adjournment was had to Wednesday evening.

An attractive musical feature of the Sunday services at the Universal Church was the singing of Mrs. Flora Winchell of Vallejo, Cal.

C. H. Hovey of the Raymond nursery has joined the throng rolling East. Cashier Conger is again at his post in the First National Bank.

Pasadena's prestige as a home city promises to increase. During September and October, a number of collectors tax on our dog and buried stones.

The board of directors of the Board of Trade will meet in regular monthly session, in the Board of Trade rooms, this (Tuesday) afternoon at 4 o'clock.

An extra room has been opened for school purposes in the Garfield building, due to the overcrowded condition of the Lincoln School. Miss Clancy is in charge.

Miriam Gardner of the Star was an overland passenger for Chicago Monday evening, and will enjoy a month's well-earned rest and recreation in her trip to the World's Fair.

Mr. Frank S. Brown, accompanied by his son and two daughters, left for the East Monday evening. Upon their return a few weeks hence they will take possession of their beautiful new home on Orange Grove avenue.

The recently-organized choral society has begun practice upon the oratorio "Transient and Eternal," which will constitute their first public programme. The society will be known as the Philharmonic Choral Society.

The hotel feature of Monday considerably disconcerted the Sunday contestants. The day was not at all generally observed in Pasadena, still one met with it as an obstruction in several quarters. The man with a bill found it oftentimes.

Mrs. W. T. Solomon and son, Joe, of North Pasadena, start this (Tuesday) morning for San Francisco, where they will be joined by Mr. Solomon and thence they go to the World's Fair and other points in the East. They will scarcely return to this Coast much before the beginning of 1894.

Richmond vs. Merriam, found the Superior Court in the center of Labor day when the hour that they would otherwise have been called before Judge Shaw arrived. The case will, perhaps, now go over to next Monday, although there is a possibility that it will be reached today (Tuesday).

Rev. Francis Kollock's first Monday afternoon at 10 o'clock brought the cordial greetings of many Pasadenaans. The rooms of the Webster home were beautifully decorated with cut flowers and potted plants, and social evening, interspersed with music, was enjoyed by a goodly company.

Robert Brooks, who, with his son, has purchased a farm near the Eagle Rock, and who has been living on Eagle Rock street, starts today (Tuesday) accompanied by his wife, for their former home, Washington, D. C., where he has business interests. The date of

his return to the West is yet undetermined.

Rev. D. P. Hill is expected home from his Eastern trip on Friday next. The ladies of his congregation will decorate the First Congregational Church for that date, and on Friday evening there will be a social welcoming of the reverend gentleman to his place in the church and community. A pleasant time is anticipated and the attendance will be general.

## SANTA MONICA.

Row Between a Man and His Divorced Wife. News Notes.

Juan Salgado, the night watchman here, was arrested yesterday morning on complaint of his divorced wife, a Mrs. Lopez, for disturbing the peace. The difficulty arose over their children. As the facts are reported, Salgado is not guilty of a very serious breach of the peace. His trial is for a visit of four weeks at the World's Fair.

## SAN BERNARDINO.

## A Murder Mystery About to Be Cleared Up.

William Cochran Suspected of Causing Frank Geary's Death—A Little Surprise Sprung by the Board of Supervisors.

Ever since the finding of the body of Frank Geary in the canyon of Lytle Creek, the officers have been busy investigating the mystery of his death. William Cochran, a neighbor, was arrested a few days ago, charged with stealing tools from a man named Phelan. He is suspected, however, of being connected with Geary's death.

A couple of colored jumpers were found in his cabin, which he says, have not been used since last June. One of them shows evidence of having been lately washed, and the other was covered with blood, which he says is the blood of a rabbit. The officers, however, think the blood is Geary's. Cochran and Geary had trouble over land matters. Since Geary's death Cochran has been uneasy and nervous.

## LIKE &amp; THUNDER CLAP.

Like a thunder clap from a cloudless sky came the action of the county supervisors in the dispensing with the services at the County Hospital of the superintendent, the matron and one nurse, and placing all under the control of Dr. D. C. Jones.

Yesterday being Labor day, the schools were closed. The bank, however, kept open during the forenoon, and the stores not closed at any time during the day.

E. Caverua, Springfield, Mo.; O. Ransom, Pasadena; O. S. Benson, Colton; J. D. Ross, Nebraska, are the latest arrivals at the Hotel Jackson.

The Santa Rosa sailed north yesterday afternoon with the usual quota of passengers and merchandise.

## RIVERSIDE COUNTY.

## Supervisors Refuse to Reduce Insurance License.

The Outlook for the Raisin Crop—Prohibition is Now the Order of Things—Notes and Personal—Batch of Brevities.

The demand of the Pacific Insurance Union made upon the city trustees some weeks ago, to the effect that unless the license fee of \$25 per annum, which the local agents are compelled to pay, be repealed, the rate of insurance would be advanced by the companies represented, was supplemented by another communication, presented at the last meeting of the trustees. The latter communication is of a much milder temper than the first, but, like the first, it received no further attention, save being filed without action.

The trustees evidently intend that when a license is imposed upon a business it shall be added to the price.

## THE RAISIN CROP.

The raisin crop of the valley is about half picked, and another two weeks' will finish the work. The crop is not as heavy as in former years. The work is done by hand, and the labor is mostly by white labor, only a few Chinese and Indians being employed. The weather for the past ten days has been cool, and the fruit dried slowly in consequence. So far, no sales have been reported. But offers have been made which are better than the prices of last season.

## PERSONALS.

Miss Gertrude Mauer is visiting in Chihuahua, Mexico...City Health Officer Pratt is spending his vacation at Pomona. John H. Hayes and wife have gone to the World's Fair...W. G. Reed is critically ill...John Martin has gone to Vinita, I. T. C. P. Jenkins is in San Francisco...Rev. C. A. Westenberg of the First Methodist Episcopal Church was tendered a reception by the members of the church last Friday evening...Police Officer Hovey will be on the scene of the last for several days. Frank Daley and wife have gone to St. Louis and the World's Fair...Paul Sutton and wife have departed for the White City...Jeff Daley and wife are off for the World's Fair...D. T. Brummett will leave on Tuesday for the Magic City.

NEWS AND BUSINESS.

## The Weather.

U. S. Weather Bureau, Los Angeles, Oct. 2, 1893.—At 5 o'clock a.m. the barometer registered 30.07; at 5 p.m., 30.02. Thermometer for the corresponding hours showed 57 deg. and 73 deg. Maximum temperature 85 deg.; minimum temperature, 52 deg. Character of weather, clear. Barometer reduced to sea level.

Bradshaw Bros. have removed their real estate office to No. 129 South Broadway, where they have some great bargains to offer.

Do not forget the grand opening of millinery and cloaks Thursday, Friday and Saturday at the Margrave, 124 South Spring street.

For what it costs to run one ordinary fire, Brown's hot-air furnace will warm the whole house. 314 South Spring street.

For what it costs to run one ordinary fire, Brown's hot-air furnace will warm the whole house. 314 South Spring street.

F. E. Brown's Rochester lamp stove has been greatly improved and beautified, and the price reduced. 311 S. Spring st.

Buy Neisen's fine shoes for gentlemen. Feet just as easy as an old shoe. M. F. Snyder, 118 South Spring street.

Car and Senior Caskets, the Mexican leather carver at Kan-Koo, No. 110 South Spring street.

We are selling all broken lines for less than cost. Snyder's Shoe Store, 22 South Spring street.

Mantels, office fittings, hardware, lumber. H. Bohrman, 514 S. Spring.

Spend your vacation on Wilson's Peak. Address C. S. Martin, Pasadena.

New cloaks and furs ready at the Margrave, 124 South Spring street.

Buy the Whitney make truck. Trunk factory, 246 North Main street.

Adams the gunsmith, 112 Commercial street, is closing out.

Dr. Knapp, diseases of the skin. Bryson Block.

Electric heater, C. T. Paul's, 120 S. Main. Big bargains at Campbell's. See ad. California curios, 32 S. Spring st.

"The Unique" kid-glove house.

The City Council will meet this morning at 10 o'clock.

"D." is reminded that The Times does not print communications, no matter how meritorious, unless accompanied by the real name of the author, not, however, for publication.

There are undelivered telegrams at the Western Union telegraph office for Parry Davis, Mrs. James E. Johnston, Miss Margaret Weston, Chona Carica and Mrs. H. G. O'Hearn.

Labor day passed off without any special demonstration. The laborers amused themselves at their usual avocations, while the bank officials and public officers took a holiday.

Augustus Martinez, a twelve-year-old lad, was thrown off a train car near the corner of Dale and Main, Pasadena avenue. He was hurt and suffered a sprain of the wrist, and landing on his head was rendered unconscious. He was taken into the house of Capt. Tyler, near by, and was attended by Dr. Newton.

According to the Weather Bureau's meteorological summary for September, the mean barometer for the month was 29.30; highest, 30; date 7th; lowest, 29.78, date 26th. The mean temperature was 68 deg.; highest, 90 deg., date 31; lowest, 48 deg., date 26th. The mean temperature for the month, for fifteen years is 70 deg. There was a trace of rain.

"Little Jack" McGrory has returned from San Francisco. He says he was duly delivered at the office of the Examiner, when he repeated the story he first told through the columns of The Times. He then had an interview with Dr. West's attorney, and when they found that all he had to say had been given to the papers, and there was no disposition on his part to change it, he was led out into the atmosphere and told that he might go.

## PERSONALS.

Maj. W. H. Bonsall left for San Francisco on the 2 p.m. train yesterday.

Frank B. Schutte and Sidney Mumford of the San Diego Union are in the city on a short visit.

The Chairman of Steinart & Chapman, general merchants at Rivera, was in the city yesterday.

H. H. Morris of St. Louis, Mo., and William G. White, left on the Santa Fe yesterday for New York City.

J. Davis, Esq., and Miss Carrie Davis, left yesterday for a visit to the fair. After a few days, they will spend some time in Cincinnati.

Col. W. Forrest of the Grand Army left yesterday for the East. He intends to stop at Salt Lake, Chicago and Pittsburgh, returning via San Francisco in time for the Midwinter Fair.

An Attractive Series of Evening Classes and Entertainments.

If the young men of the city do not use their spare time to good purpose it will not be the fault of the Young Men's Christian Association. It presents an excellent series of evening classes, lectures and entertainments.

The Education and Church Committee, of which Shirley C. Ward is chairman, announce the following subjects and instructors: Spanish, Prof. Bransby, German, Prof. Kutter; vocal music, Prof. Peterslein; guitar, banjo, and mandolin, Prof. de Lano; elocution, Prof. Moody; shorthand, Prof. Wren; penmanship, and arithmetic, Prof. Feller; penmanship, Prof. Hough; mechanical, architectural and free-hand drawing, Messrs. Aiken and Benton. There will be a class in debate, public speaking and parliamentary rules, and also in English grammar, reading, spelling and pronunciation. If there is sufficient demand classes will be formed in wood-carving, clay-modelling and French. Prof. Hough will give a series of lectures on electricity, and Prof. T. N. Lord on chemistry, each series being illustrated with experiments, models, diagrams and specimens. Lectures and Entertainments are preparing an equally attractive program, which it will soon have ready to announce. The advantages of the association are open to all young men irrespective of religious tests, and at a very nominal cost. No wiser investment can be made of time or money than to join it.

**THE AACHEN AND MUNICH FIRE INSURANCE COMPANY.**

Of Aix la Chapelle, Germany, is one of the largest and best insurance companies doing business in the United States. With a capital of \$250,000, it has a surplus to policy-holders of \$5,961,015. This showing is almost unequalled, and property-holders desiring insurance that insures will do well to call on the resident agents.

HANNA & WEBB,  
101 S. Broadway.

## CONFESSIONS AGAINST EVANS.

Sontag Turns State's Evidence to Free Himself.

**FRESNO.** Oct. 2.—The case of Evans for robbing the stage will be tried. His attorney is well prepared. He had a new suit of clothes made at Gordon Bros., tailors, 118 South Spring street, and he is very much pleased with the fit and make of the clothes, as he has to be in his best to argue Evans's case so as to prove Sontag's confession worthless.

## M. T. LOWE RAILWAY.

Free concert at Rubio piano by Ideal Guitar and Banjo Club, assisted by S. A. Moody and Miss Ethel Graham, soloist. See time card.

## THE CITY COUNCIL.

## Important Matters to Come Up at Today's Session.

## The Saloon Question and the Waterworks Proposition—Increasing the Number of Men on the Police Force.

The City Council will hold its regular weekly meeting today.

A report from the Street Superintendent will be presented, in which that official will ask for an additional clerk in his office. The communication will state that the books of the office have been carefully straightened out, and that two deputies are not sufficient to do the work required there.

The matter of the acceptance of the wagon made by R. Moloney, last week referred to the Supply Committee and chief engineer, and a report on the same is now expected from them.

It seems that when the contract for the furnishing of the wagon was approved by the Council, it went to the Mayor for his approval.

The Mayor for some reason did not sign it, and did not notify the Council that he had not done so.

Mr. Moloney went ahead and built the wagon, supposing that the contract was all right. It is expected that the Council will take some action in reference to it today.

The City Council has been instructed by the Police Commission to present a requisition for the expense of printing notices containing the new rules of the commission in reference to saloons.

If this be presented today, there is likely to be some spirited talk. One or two of the councilmen are likely to think the rules are too severe, and for this reason they are expected to raise objections to the passage of the requisition.

A number of the councilmen, however, are at least to a large extent, in sympathy with the action of the commission, and it is expected that they will favor an extension of that board any reasonable encouragement in their power.

Should the saloon men bring sufficient pressure to bear, a lively debate may be expected, but it is believed that the passage of the requisition will be delayed, and not prevented by this course.

The Finance Committee was at the last meeting instructed to report as to the accuracy of the statement in the report of the manager of the free labor bureau, presented at that time.

It was also expected that a report will be presented on the number of teams hauling gravel for improving streets, and also the cost of the same for the past eight months.

The Sewer Committee will probably report in reference to the complaint made by Mr. Henry, a Crescent-avenue resident, against the city, concerning it.

It will be remembered that Mr. Henry complained that the actual work of constructing a sewer was \$18, while the expense for engineers' and inspector's fees on the same job was \$140.

It is possible that some action may be taken in reference to a bicycle ordinance.

While something may be done toward the purchase of the plant of the City Water Company, it is believed the Council will take no official action just at present on account of some uncertainties existing now.

The Sewer Committee will probably come up, and a proposition will be submitted for classifying curios, and building a large hall.

It is the action of the syndicate not being certain as to whether the bargain will go through, they do not feel warranted in entering into further negotiations at this time.

The question of circus licenses will also probably come up, and a proposition will be submitted for classifying circuses and building a large hall.

It is the action of the syndicate not being certain as to whether the bargain will go through, they do not feel warranted in entering into further negotiations at this time.
